

## Application Instructions

We welcome your interest in the Hyde School and look forward to reviewing your application. Please follow the instructions below and return the completed forms to us as soon as possible. If you have any questions, please call the Admission Office to which you are applying.

***Application Form.*** Your parent(s)/guardian(s) should complete and return the application form.

***Recommendations.*** You should submit teacher recommendations to your current English and mathematics teachers, and the school recommendation and transcript request form to the office of your school's principal, head or guidance counselor. Please give each reference one of the enclosed Hyde School return envelopes, stamped, with each recommendation form.

***Personal Interview.*** Call the Hyde School Admission Office to which you are applying to make arrangements for your campus visit and family interview.

***SSAT (optional).*** Please have SSAT scores sent to Hyde School. The Admission Office of the school to which you are applying can answer any questions you may have regarding admission testing.

***Financial Aid.*** The Hyde School is committed to making the cost of an education at our schools affordable for students. Admission and financial aid decisions are made separately. Need-based financial aid is awarded, as determined by the school, using the assessment of the School and Student Service for Financial Aid, and a family's income tax information. To receive financial aid materials, please mark the appropriate box on the application form.

***School Transcript Records.*** In order to accurately place a student academically and to account for all previously earned credit, it is essential that we have all former school information (grades 7-12). It is imperative that you provide us with a transcript prior to your son's or daughter's interview. Upon enrollment, we must have an official transcript before class registration.
