

The Biggest Job Family Program, 2020-2021

The Family Program at Hyde School encourages a lifelong journey of personal and family growth. Parents are the primary teachers and the home is the primary classroom. The purpose of the program is to help parents with their own transformation, which in turn, will inspire and determine their student's growth.

Goals

Self-Discovery: helping each participant become his or her best self.

Family Transformation: connecting the family's strengths and challenges to their vision.

Character Curriculum: learning about the core beliefs and principles of the Hyde Education.

Parent Participation

The family program is open to all parents and committed adults. Full participation involves a willingness to do one's best. Hyde recognizes that conflicts may arise and the Family Program staff will work with each family to create a successful partnership to ultimately benefit the student.

Parents who fully participate in the program have an opportunity to graduate with a Hyde Parent Diploma.
